Report Comments

This summary report contains data on the motivation question (provided for context) and then, for each LENS area/question, a single indicator of how many responses relate to the target response/s, as set by Faculty Senate policy. Data from different courses or course type per term are not combined but multiple sections of the same course or same course type by the same instructor in a term get combined. If no results are displayed for a term or section type, then the minimum response threshold of 5 respondents was not met.
